A. Specification Detail

Amlodipine Tablets 5mg	
INN/Generic Name	Amlodipine Besylate tablets; Amlodipine Besilate Tablets
Dosage form	Tablets
Strength	Each film coated tablet contains- Amlodipine (as Besylate/Besilate) 5mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Amlodipine Tablets should be packed in an Aluminum-PVDC coated amber colored/ opaque PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 blisters each containing 10 Amlodipine tablet are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store at room temperature, protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store

Amoxycillin Dispersible Tablets 250mg	
INN/Generic Name	Amoxycillin Trihydrate Dispersible Tablets; Amoxycillin Dispersible Tablets
Dosage form	Tablets
Strength	Each Dispersible Tablet contains- Amoxycillin (as Trihydrate) 250 mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product

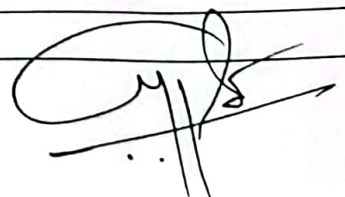

hfu

	monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets strip pack.
Primary Pack	Amoxicillin Dispersible Tablets should be packed in an Aluminum - Aluminum strip pack. Aluminum foils thickness –NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 strips each containing 10 Amoxycillin Dispersible tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton are packed in cardboard carton NLT 5 ply.
Special Storage	Store at room temperature, protected from moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Azithromycin Tablets 250mg	
INN/Generic Name	Azithromycin Tablets
Dosage form	Tablets
Strength	Each film coated tablet contains- Azithromycin (as Dihydrate/anhydrous) 250 mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1 × 10 Tablets blister pack.
Primary Pack	Azithromycin tablets should be packed in an Aluminum-PVDC coated PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 blisters each containing 10 Azithromycin tablets packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store at room temperature, protect from moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Azithromycin Tablets 500mg

✓

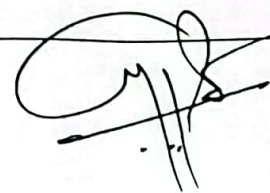

INN/Generic Name	Azithromycin Tablets
Dosage form	Tablets
Strength	Each film coated tablet contains- Azithromycin (as Dihydrate/anhydrous) 500 mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1 × 3 Tablets blister pack.
Primary Pack	Azithromycin tablets should be packed in an Aluminum-PVDC coated PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	3 blisters each containing 3 Azithromycin tablets packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store at room temperature, protect from moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Calamine Lotion 30 ml

INN/Generic Name	Calamine Cutaneous Suspension; Calamine Lotion
Dosage form	Lotion
Strength	Calamine lotion contains: Calamine 15% w/w Zinc oxide 5% w/w
Standard	API should meet the monograph requirement/Lotion should meet specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×30ml PET Bottle
Primary Pack	Calamine Lotion packed in clear PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll On Pilfer Proof) cap with EPE (Expanded Polyethylene) liner with tamper evident seal.

lts

Quantity primary pack in supply unit	50 bottles shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store at room temperature. Do not freeze.
Shelf Life	Minimum 24 months. 3/4 th shelf life must be available at the time of delivery to the designated store.

Ciprofloxacin Eye Drops 5 ml

INN/Generic Name	Ciprofloxacin Eye Drops; Ciprofloxacin Ophthalmic Solution
Dosage form	Ophthalmic Drops (Eye Drops)
Strength	Ciprofloxacin Eye drop contains- Ciprofloxacin (as Hydrochloride) 0.3% w/v
Standard	API should meet the monograph requirement/Eye and Ear drops should meet general requirement stated under Ophthalmic Drops and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×5ml vial
Primary Pack	Ciprofloxacin Eye Drops are packed in a sterile gamma irradiated Lupoline Vial provided and High Density Polyethylene (HDPE)tamper evident cap / FFS (Form Fill Seal) technology based vial. Each primary package shall be packed in a mono carton.
Quantity primary pack in supply unit	100 vials shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store at room temperature, protected from light.
Shelf Life	Minimum 24 months. 3/4 th shelf life must be available at the time of delivery to the designated store.

Clotrimazole Cream 25 g

INN/Generic Name	Clotrimazole Cream (skin)
Dosage form	Cream
Strength	Each tube contains- Clotrimazole 1% w/w
Standard	API should meet the monograph requirement/Cream should meet general requirement stated under Creams and specific requirement of the individual

hfu

	product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1 × 25 g Collapsible Tube
Primary Pack	Clotrimazole Cream is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store protected from moisture and light
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Lidocaine and Adrenaline Injection 1%w/v, 30ml	
INN/Generic Name	Lidocaine and Epinephrine Injection; Lidocaine Hydrochloride and Epinephrine Injection
Dosage form	Parenteral preparation (Injection)
Strength	Each ml Injection contains- Lignocaine/Lidocaine Hydrochloride 10mg. Adrenaline/Epinephrine (as acid tartrate) 1: 200,000 (5mg)
Standard	API should meet the monograph requirement /injection should meet general requirement stated under parenteral preparation (injection) and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1 × 30 ml Glass vial
Primary Pack	Lignocaine and Adrenaline Injection shall be packed in an amber color glass vial glass Type I.
Quantity primary pack in supply unit	Each vial is packed in a printed mono carton. Patient information Leaflet (PIL) should be provided in secondary packaging. 50 such vial are packed in a cardboard carton NLT 5 ply
Special Storage	Store at room temperature.
Shelf Life	Minimum 12 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Paracetamol Tablets 500mg	
INN/Generic Name	Paracetamol tablets; Acetaminophen Tablets.
Dosage form	Tablets
Strength	Each tablet contains-

MSU

Paracetamol 500mg	
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Tablets should be packed in an Aluminum- PVC film amber colored / opaque blister pack. PVC film Thickness : NLT 250 micron & NLT 350 gsm Aluminum Foil Thickness: NLT 25 micron & NLT 60 gsm
Quantity primary pack in supply unit	50 Blisters each containing 10 paracetamol tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

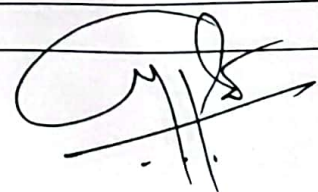

Ranitidine Tablets 150mg	
INN/ Generic Name	Ranitidine Tablets, Ranitidine Hydrochloride Tablets.
Dosage form	Tablets
Strength	Each Film coated tablet contains- Ranitidine (as Hydrochloride) 150mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Strip pack.
Primary Pack	Ranitidine Tablets should be packed in an Aluminum - Aluminum strip pack. Aluminum foils Thickness –NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 Strips each containing 10 Ranitidine tablet are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Handwritten signature/initials on the left side of the page.

Handwritten signature/initials on the right side of the page.

Vitamin B-Complex Capsules	
INN/Generic Name	Vitamin B-Complex Capsules
Dosage form	Capsules
Strength	Each Vitamin B-Complex Capsule shall contains- Thiamine Mononitrate 5mg Riboflavin 5mg Pyridoxine Hydrochloride 1.5mg Nicotinamide 50mg Calcium Pantothenate 25mg
Standard	API should meet the monograph requirement/capsule should meet general requirement stated under capsule given in any pharmacopoeia recognized by Drug Standard Regulation 2043 and specific requirement of manufacturer in house product specification.
Basic Unit	1×10 Capsules Blister pack
Primary Pack	Capsule should be packed in an Aluminum-PVDC coated PVC film blister pack. PVC film thickness : NLT 300 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 Blister each containing 10 capsules are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono cartons packed in cardboard carton NLT 3 ply.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Cefixim Tablets 400mg	
INN/Generic Name	Cefixim Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Cefixim 400mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack

hew

Primary Pack	Tablets should be packed in an Aluminum - Aluminum Blister pack. Aluminum foils Thickness -NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 Blisters each containing 10 cefixim tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Nitrofurantion 100mg

INN/Generic Name	Nitrofurantion Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Nitrofurantion 100mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Nitrofurantion tablets should be packed in an Aluminum-PVDC coated amber colored/ opaque PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 Blisters each containing 10 Nitrofurantion tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Aceclofenac Tablets 100mg

INN/Generic Name	Aceclofenac Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Aceclofenac 100mg

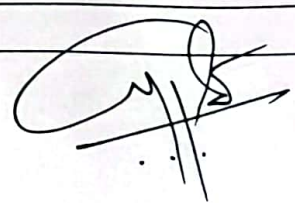

Standard	API should meet the monograph requirement/ Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Tablets should be packed in an Aluminum - Aluminum Blister pack. Aluminum foils Thickness –NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 Blisters each containing 10 Aceclofenac tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Calcium carbonate 500mg	
INN/Generic Name	Calcium Carbonate Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Calcium carbonate 500mg
Standard	API should meet the monograph requirement/ Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Calcium carbonate tablets should be packed in an Aluminum-PVDC coated amber colored/ opaque PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 Blisters each containing 10 calcium tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Mefenamic Tablets 500mg

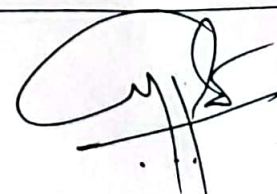

LES

INN/ Generic Name	Mefenamic Tablets
Dosage form	Tablets
Strength	Each film coated tablet contain- Mefenamic acid 500mg
Standard	API should meet the monograph requirement/ Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 tablet Blister pack
Primary Pack	Mefenamic acid tablets should be packed in an Aluminum-PVDC coated amber colored/ opaque PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 blisters each containing 10 mefenamic acid tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 100 such mono carton packed in cardboard carton NLT 5 ply.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Norethisterone Tablet 5mg

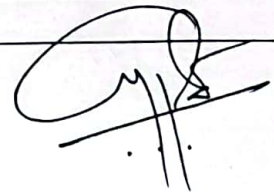

INN/Generic Name	Norethisterone Tablet
Dosage form	Tablet
Strength	Each film coated tablet contain- Norethisterone 5mg
Standard	API should meet the monograph requirement/capsule should meet general requirement stated under capsule given in any pharmacopoeia recognized by Drug Standard Regulation 2043 and specific requirement of manufacturer in house product specification.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Tablet should be packed in an Aluminum-PVDC coated PVC film blister pack. PVC film thickness : NLT 300 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron

Quantity primary pack in supply unit	10 Blister each containing 10 Norethisterone Tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging, 100 such mono cartons packed in cardboard carton NLT 3 ply.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Methylcobalamin Tablets 1500mcg	
INN/Generic Name	Methylcobalamin Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Methylcobalamin 1500mcg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Tablets should be packed in an Aluminum - Aluminum Blister pack. Aluminum foils Thickness –NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 Blisters each containing 10 Methylcobalamin tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

Pantoprazole Tablets 40mg	
INN/Generic Name	Pantoprazole Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Pantoprazole 40mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack

Primary Pack	Tablets should be packed in an Aluminum - Aluminum Blister pack. Aluminum foils Thickness –NLT 40 micron and 60 gsm.
Quantity primary pack in supply unit	10 Blisters each containing 10 Pantoprazole tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

Losartan Tablets 50mg	
INN/Generic Name	Losartan Tablets.
Dosage form	Tablets
Strength	Each tablet contains- Losartan Potassium 50mg
Standard	API should meet the monograph requirement/Tablet should meet general requirement stated under tablet and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 Tablets Blister pack
Primary Pack	Losartan tablets should be packed in an Aluminum-PVDC coated amber colored/ opaque PVC film blister pack. PVC film thickness : NLT 250 micron with 60 gsm PVDC coating Aluminum Foil Thickness : NLT 25 micron
Quantity primary pack in supply unit	10 Blisters each containing 10 Losartan tablets are packed in a printed mono carton (NLT 300 gsm) for secondary packaging. 25 such mono carton packed in cardboard carton NLT 3 ply.
Special Storage	Store at room temperature, protected from moisture and light.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.
