Section 6. Corrupt and Fraudulent Practices

It is the GoN's policy to require its implementing agencies, as well as consultants under GoN (or DP) financed contracts, to observe the highest standard of ethics during the selection and execution of such contracts. In pursuance of this policy, the GoN:

- a. defines, for the purposes of this provision, the terms set forth below as follows:
 - (i) "corrupt practice" means the offering, giving, receiving, or soliciting, directly or indirectly, anything of value to influence improperly the actions of another party;
 - (ii) "fraudulent practice" means any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
 - (iii) "coercive practice" means impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
 - (iv) "Collusive practice" means an arrangement between two or more parties designed to achieve an improper purpose, including influencing improperly the actions of another party.
 - (iv) "obstructive practice" means:
 - (aa) deliberately destroying, falsifying, altering or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a GoN/DP investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or

- b. will reject a proposal for award if it determines that the consultant recommended for award has engaged in corrupt or fraudulent activities in competing for the contract in question;

PART II

Section 8. Conditions of Contract and Contract Forms

Foreword

1. Part II includes standard Contract forms for Consulting Services (a Lump-Sum Contract).
2. **Lump-Sum Contract:** This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified outputs and milestones. Nevertheless, quality control of the Consultant's outputs by the Client is paramount.

It has been already developed some garden and open spaces with developing its DPR as well as some of them has been constructed according to its DPR. In this fiscal year it has been planned to develop a DPR for a Park which also called Kanari Park. The park has covered an area approximately 56,916 Sqm (5.7 Hectare) and Surrounded by total of approx. 28 Hectare. It has water bodies and pond, greenery, sitting area, nursery, Picnic Area etc, but many areas are waiting for renovate the place. Now the park infrastructures has become old fashion, many structures scrambled and waiting for maintenance too. In this context, municipality has planned it to develop in a modern need and fashion, make it more attractive and useful for local people as well as a place of tourist attraction.

Dhangadhi Sub-Metropolitan City is located in the Kailali District, Sudur Paschim Province, Nepal. It was established in 2033 B.S as Dhangadhi Municipality and promoted to Dhangadhi Sub-Metropolitan City from 2072/06/01. It is located at the altitude of 109 m from sea-level and 750 KM from Kathmandu, capital City of Nepal. Dhangadhi Sub-Metropolitan City is divided into 19 wards. It is geographically plain and occupies a total area of 271.74 Sq. KM. It is surrounded by Kailari Rural Municipality in the east, Mohana River in the west, Godawari and Gauriganga Municipality in the north and India in the south. According to the Census 2011, Dhangadhi Sub-Metropolitan City has a total population of 1, 47,741. According to the preliminary data of National Census 2021, Dhangadhi Sub-Metropolitan City has a total population of 2, 04,788 with 32,249 households and 46,670 family population. Out of the total population, 1, 02,334 are male and 1, 02,454 are females. So, this local level has experienced population growth more than 55000 within this 10 years.

Dhangadhi has a monsoon-influenced humid subtropical climate. The highest temperature ever recorded in Dhangadhi was 46.4 °C (115.5 °F) on 16 June 1995, which is the highest temperature to have ever been recorded in Nepal. The lowest temperature ever recorded was 0.0 °C (32.0 °F) on 11 January 1985.

In this social and environmental context, the park is proposed to redevelop with new idea of modern needs. The major area for exploration for planning and design are ecological conservation, protection of greeneries within the city, waste management within the park and equally useful for all aged people as well as for differently abled people too. Besides this this will be a place of disaster management at need as well as center for tourist attraction within the city. To prepare a DPR for this park DSMC do not have expert to prepare DPR works.
